d. Significant trends in trade and investment:

S. No.	Category	Details of significant trends (Max.200 words)	Analysis (Max.200 words)
1.	Trade	The Ministry of Trade, Industry and Energy (MOTIE)	South Korea saw strong export growth in semiconductors (up 11.8%), mobile phones

		announced on 30th April 2025 that ROK's ICT exports reached USD 20.58 billion, an increase compared to the same month last year. Imports also grew by 9.4% year-on-year, totaling USD 12.21 billion. Consequently, the ICT trade balance recorded a surplus of USD 8.37 billion.	(14.5%), and computers and peripherals (28.1%), though communication equipment exports slightly declined by 0.4%. Regionally, exports rose to the U.S. (19.4%), Vietnam (14.6%), and Japan (3.3%), but fell to China including Hong Kong (−12.2%) and the EU (−2.8%). Semiconductor exports reached USD 13.06 billion, boosted by reduced inventories and rising demand, while mobile phone and computer exports grew due to increased component shipments and AI-driven demand for memory devices. Exports to Taiwan surged by 158.4%, largely from a 172.8% spike in semiconductors, whereas exports to India dipped 3.7% amid declines in key tech products. On the import side, the U.S., Japan, and Vietnam saw modest increases, while imports from China dropped significantly by 22.5%. **Korea, U.S. Agree to Launch Tariff Consultations** On April 24, Trade Minister Dukgeun Ahn and Deputy Prime Minister Choi Sang-mok held the Korea-U.S. 2+2 Trade Dialogue in Washington, D.C. Minister Ahn later met with the U.S. Trade Representative (USTR), where both sides agreed to begin working-level consultations on tariff issues as soon as possible. In the dialogue, Ahn urged the U.S. to exempt Korea from all current and future tariffs, including those on autos and steel. Both sides reached a principled agreement to establish a consultation framework, with working-level talks set for next week to define the scope and format. Coordination will continue with relevant ministries and Korea's Economic Security Strategy Task Force.

			ROK - India Officials Discuss Cooperation on Key Minerals, Supply Chains Mr. Kim Hee-sang, RoK's Deputy Minister for Economic Affairs, MoFA met Secretary (East), MEA and Additional Secretary in the Department of Commerce in New Delhi on April 28. They discussed deepening economic cooperation in strategic areas, including critical minerals and supply chains, and agreed to enhance collaboration on economic security and core technologies. The talks also covered progress on upgrading the Comprehensive Economic Partnership Agreement [CEPA] and expanding Korean participation in high-value infrastructure projects in India. Both sides shared views on global economic trends, including the US policy under the Trump administration, and pledged continued communication and cooperation.
2.	Investment	Total investment made by Korea to India amounted to $929 million during 2024, latest data as of April 2025. Cumulative investment since 1980 stands at $9.46 billion. The total number of Korean investments in India is 5,416 since 1980.

1.	April 2, 2025 / Ministry of Science and ICT (MSIT)	AI, Data, Life Sciences		2026	Ministry of Science and ICT (MSIT) announced that the Synthetic Biology Promotion Act was approved by the National Assembly on April 2. This legislation aims to lay a strong legal and policy foundation for advancing synthetic biology, a field that integrates AI, big data, and life sciences. The Act mandates the formulation of a basic plan every five years by MSIT, with input from relevant ministries. It also establishes a legal

					basis for the creation of a Synthetic Biology Development Council and the designation of policy-focused institutions. To facilitate research and development, the Act provides for national R&D projects and allows the designation of hub institutions to promote collaboration between industry and academia. Additionally, it supports the development of infrastructure such as biofoundries, encourages the use of research data, and includes provisions for standardization, expert training, and international cooperation. The Synthetic Biology Promotion Act is set to take effect in 2026, one year after its promulgation, and the government plans to implement necessary follow-up measures, such as enacting enforcement ordinances and detailed guidelines.
