Sl. No.	Details
1.	India and Japan are deepening their collaboration in green technologies, clean energy, and manufacturing, with significant investments in solar, green hydrogen, and semiconductor sectors. Japan's \$43 billion FDI in India and strategic partnerships like ReNew Power's green ammonia project reflect strong trade ties, while India's focus on renewable energy and semiconductor manufacturing presents new opportunities for Japanese businesses. Both nations are poised to enhance supply chain stability and contribute to India's low-carbon transition.
2.	India and Japan have formalized an agreement to deepen maritime ties, focusing on smart, green islands in the Andaman & Nicobar and Lakshadweep,

	port digitization, and emission reduction. Japan is investing in India's maritime infrastructure, including a greenfield shipyard in Andhra Pradesh, while also seeking Indian seafarers to address labor shortages. The partnership includes joint R&D in sustainable shipping technologies and clean fuel vessels, aligning with India's Maritime India Vision 2030 and carbon-neutral logistics goals. This collaboration strengthens India's strategic position in the Indo-Pacific and supports job creation and technological advancement.
3.	The Committee of Permanent Representatives to ASEAN held an informal meeting with Secretary (East) of the Ministry of External Affairs of India, P. Kumaran, on 20th June 2025 at the ASEAN Headquarters/ASEAN Secretariat. The Meeting exchanged views on the progress of ASEAN-India Comprehensive Strategic Partnership (CSP).
4.	<p>The 11th Japan-India Joint Committee Meeting on Science and Technology Cooperation took place on June 5 in Delhi, as part of the "Japan India Science Technology and Innovation Exchange Year".</p> <p>The Joint Committee Meeting was co-chaired by Mr. KAWAMURA Hiroshi, Ambassador for Science and Technology Cooperation, Ministry of Foreign Affairs of Japan, and Dr. Praveenkumar Somasundaram, Head, International Cooperation Division, Department of Science & Technology. Representatives from both countries' relevant ministries and agencies participated both in person and online.</p> <p>During the meeting, both sides introduced the national science, technology and innovation policies, and reviewed the current status of ongoing cooperation in various areas such as biotechnology, medicine, space and astronomy, and meteorology and disaster prevention, and exchanged views in new areas such as quantum technology and AI. In addition, to co-create innovation in the fields of science and technology, they also agreed on the importance of fostering and promoting exchanges between students and young researchers in both countries in particular, and that there is great potential for cooperation between both countries in science, technology, and innovation, and that they will promote cooperation by leveraging each other's strengths.</p>
