S. No.	Name of business house	Activity sector	Trade barrier issues if any (incl. HS codes)	General Feedback (Max.200 words)
1.	Strict Bio Security norms make export of food grains and other such items to New Zealand very difficult. The suggested measures after detection of pests in a consignment are not cost effective. There are three options given to the importers: (i) Send back the consignment or (ii) Go for complete fumigation or (iii) Destroy the whole shipment. However, major importers like Yogi Ji, Patel Brothers, Indo-Kiwi, and others have successfully brought Indian food products, hair oils, and ayurvedic/ herbal items to New Zealand, where they are widely sold and appreciated.			
2.	The Ministry of Primary Industries (MPI) enforces controls on imported goods to ensure that no unwanted pests or diseases enter the country and that food remains safe to eat. Guidelines for the import of almost all types of commodities have been prescribed and are mandatory. Customs clearance is not overly difficult or cumbersome, provided the consignment complies with the prescribed procedures. The required procedures and documentation are readily available on their website: https://www.mpi.govt.nz/import/importing-into-nz-how-it-works/importing-process/			
3.	High Commission of India has been working diligently to reduce trade barriers for importers without compromising its standards.
