d. Significant trends in trade and investment:

S. No.	Category	Details of significant trends (Max.200 words)	Analysis (Max.200 words)
1.	Trade	Recently, the Korean economy has shown signs of recovery, supported by improvements in domestic demand – particularly consumption – and strong performance in the semiconductor sector, indicating an economic	Exports grew by 3.6% compared to last year to USD 59.7 billion. Exports were driven by significant growth in semiconductors (up 26.5%), passenger cars (up 22.9%), and ships (up 2.3%), while exports of petroleum products (down 19.3%) and auto parts (down 8.1%) declined. Semiconductors accounted for 25.3% of total exports, up 3.7 percentage points from the previous year.

		<p>rebound from the weakness seen in the first half of the year.</p> <p>Employment challenges persist, mainly in vulnerable sectors, and uncertainties remain owing to the pace of recovery in construction investment and the impact of U.S. tariff measures.</p>	<p>By destination, exports to Latin America and ASEAN increased, while exports to US and China declined.</p> <p>Imports fell by 1.5% compared to last year to USD 53.5 billion,</p> <p>The trade balance recorded a surplus for the past 9 consecutive months totaling USD 6.1 billion in October 2025.</p>
2.	Investment	<p>Total investment made by Korea to India amounted to USD 542 million during 2025 (Jan-June 2025), latest data as of November 2025. Cumulative investment since 1980 stands at USD 10.01 billion. The total number of Korean investments in India is 5,711 since 1980.</p>

1.	November 4, 2025 / Ministry of Trade, Industry and Resources (MOTIR)	Materials, Parts, and Equipment (MPE)		2026	The Ministry of Trade, Industry and Resources (MOTIR) announced the 2026–2030 Basic Plan for Strengthening the Materials, Parts, and Equipment (MPE) Industry, outlining strategies to enhance innovation, market, and ecosystem capabilities to drive a new phase of growth and global competitiveness. The revised plan aims to support the nation's advanced industries and economic security in an era of intensifying global competition, while responding to emerging challenges such as AI and carbon neutrality. Under the new plan, MOTIR will designate ten additional MPE Specialized Clusters by 2030 to expand Korea's core manufacturing bases and foster cooperation between

					<p>demand and supply companies. It will also launch 15 Super Eul Projects to develop world-leading technologies and five AI New Materials Projects to create materials for extreme environments using artificial intelligence. The government will promote collaboration in technology, production, and procurement across the value chain and advance ten ecosystem-based cooperation models to secure next-generation supply chains. Three new industry collaboration projects will receive KRW 35 billion in joint R&D and policy support over five years.</p> <p>Source: <u>MOTIR</u></p>
