	Source: Kobe Foreign Trade Association (KFTA) 「ばれいしょでん粉」及び「蕪」に係る特別緊急関税の発動について(神戸税関)	5001.00-090	Cocoons	JPY 2,523/kg	JPY 3,364/kg		

3. Feedback

1. Feedback from local commercial visitors to trade fairs in India, including under BSM; number of Business Visas issued

Sr. No.	Activity	Date and Venue	Number of participants from relevant country	List of large/ key participants from relevant country	Number of Business Visas issued	Feedback received
1.	-	-	-	-	A total of 232 Business Visas were issued in December 2025.	-

4. Trade and Investment -

1. Significant trends in trade and investment

The Kansai region, encompassing major economic hubs like Osaka, Kyoto, and Kobe, continues to solidify its position as a pivotal center for trade and investment in Japan. With a population of over 22 million and a GDP exceeding \$842 billion, Kansai is second only to the Greater Tokyo area in economic scale. Additionally, the region's port infrastructure, particularly the Port of Osaka and Port of Kobe, facilitates robust exports, reinforcing Kansai's position as a critical hub for international trade.

Recent trends show that Kansai is leveraging its strengths in manufacturing, life sciences, and innovation-driven industries.

- **Life Sciences, Health, and Pharmaceuticals:** Kansai has emerged as a prominent life sciences cluster, home to over 350 pharmaceutical and biotechnology companies. Osaka's Saito Life Science Park and Nakanoshima Qross and Kobe's Medical Industry Development Project in Port Island have drawn global attention. Notable companies are Shionogi & Co. and Ono Pharmaceutical, headquartered in Osaka.

- **Robotics and Precision Manufacturing:** Companies like Yaskawa Electric and Omron, both with significant operations in Kansai, lead in robotics, factory automation, and AI-integrated systems. The presence of precision component manufacturers such as Murata Manufacturing and Kyocera (headquartered in Kyoto) supports a strong ecosystem for electronics and sensor technologies.
- **Chemical Industry:** The region is home to major players such as Sumitomo Chemical, Kuraray, and Daicel Corporation, whose production facilities contribute significantly to innovation in fields like advanced materials, functional resins, and industrial chemicals. Kansai's strong ties to research institutions, such as Kyoto University and Osaka University, further fuel R&D.
- **SMEs:** Small and medium-sized enterprises (SMEs) form the backbone of Kansai's economy. Cities like Higashiosaka and Sakai are renowned for their high concentration of small factories producing precision parts essential to global supply chains in automotive, aerospace, and electronics. Many of these SMEs serve as tier-one and tier-two suppliers to major corporations like Panasonic, Mitsubishi Electric, and Shimadzu.
- **Iconic Brands:** Kansai is also home to globally recognized consumer brands. ASICS, headquartered in Kobe, continues to expand its global footprint in sportswear and Nintendo, based in Kyoto, remains a titan in digital entertainment.

2. Opportunities for investments / assets on offer / major company divestment

- **Renesas Electronics Corp.**, is exploring a sale of its timing division in a deal that could value the business at close to \$2 billion. It is working with investment bankers at JPMorgan on the potential divestment, which is in its early stages. The division develops and supplies specialized integrated circuits that manage clock, timing and synchronization functions. These components are critical for ensuring the orderly flow of data in high-speed networking equipment. Key markets for the unit include data centers, where its products support communication between servers, as well as telecommunications infrastructure and the build-out of 5G mobile networks. A divestment would allow Renesas to raise significant capital and potentially sharpen its focus on its core markets, such as automotive and industrial chip. Renesas is one of the

world's largest suppliers of microcontrollers and a chip supplier to the automotive industry.

		<p>The Consul General met with the Hon'ble Mayor of Ashiya City, H.E. Mr. Ryosuke Takashima in December 2025.</p>	3195083?s=20 
9	Courtesy Visit	<p>Meeting with President of Hiroshima University</p> <p>The Consul General visited Hiroshima University in Higashi-Hiroshima and met with the President, Dr. Mitsuo Ochi, in December 2025.</p> <p>The Consul General also met with Dr. Kaneko Shinji, Executive Vice President for Global Initiatives at Hiroshima University and discussed opportunities for more R&D and Startup Collaboration.</p> <p>He also interacted with the Indian students during his visit.</p>	https://x.com/IndianConsOsaka/status/2001897089559916655?s=20  https://x.com/IndianConsOsaka/status/2001897881410916370?s=20  https://x.com/IndianConsOsaka/status/2005512186937184632?s=20

			
10	Business Meetings	<p>Outreach to Companies:</p> <p>1) Nippon Electric Glass (NEG) Co., Ltd., Shiga: NEG is a pioneer in manufacturing specialty glass for applications like display products, semiconductors, automotive and pharmaceutical tubings. The company has signed a contract for a sales agent in India, and thinks of the possibility of expanding into India especially for display panel manufacturing.</p> <p>2) Hiyoshi Corporation, Shiga: Hiyoshi's activities include environmental analysis, testing of materials, facility management and Environmental Conservation & Ecological Services. The Company has its active presence in India through its subsidiary Hiyoshi India Ecological Services Private Limited in Tamil Nadu since 2011. They are looking for more investments in India.</p>	<p>https://x.com/IndianConsOsaka/status/1995991471758225559?s=20</p>   <p>https://x.com/IndianConsOsaka/status/1995992088828350596?s=20</p> 

3) Shirai Electronics Industrial Co., Ltd., Shiga:

The company manufactures high-spec PCB for high-speed devices. They are looking to expand in the Indian Market. The preferable route for them will be JV and accordingly to introduce PCB manufacturers.

4) Optex Co., Ltd., Shiga:

The company is a leading manufacturer of sensors especially in the automatic doors market. In India they have an office in Gurugram and are marketing their products but not manufacturing.

5) Yanmar Holdings Co., Ltd.:

The Consulate visited the company along with the delegation led by Hon'ble Chief Minister of Punjab, Shri Bhawant Singh Mann. India is one of the focus markets for Yanmar.

<https://x.com/BhagwantMann/status/1996528536031727627?s=20>

6) Air Water Inc.: The Consulate visited the company along with the delegation led by Hon'ble Chief Minister of Punjab, Shri Bhawant Singh Mann. They discussed the potential for Air Water's containerised Liquified Biomethane Solutions to provide sustainable waste to energy solutions.

7) Tokushima Auction Market: The Consulate visited the company along with the delegation led by Hon'ble Chief Minister of Punjab, Shri Bhawant Singh Mann. They discussed opportunities in the food processing market especially in the field of Rice and Curry. The Company has technical know-how and manufactures sterilization machinery which increases the shelf life of food products.

8) Screen Holdings Co., Ltd., Kyoto: Screen Holdings is a leading equipment manufacturer for Semiconductors, Display Fabs and Electronic Components. The Company is actively watching the developments in the Indian Semiconductor /

<https://x.com/BhagwantMann/status/1998742674040586725?s=20>

<https://x.com/IndianConsOsaka/status/2003654671941140939?s=20>

Electronics Space. They have been attending the Semicon for the last 2 years. The key opportunity for them is to make in India the equipment for Display Fab.

9) Satake Corporation, Hiroshima: Satake is a leading manufacturer of milling machines for Rice, Wheat, Bean etc. They have ~90% market share in Japan in rice milling machines. It has a subsidiary in India, Satake India Engineering Pvt Ltd with ~50 employees engaged mainly in sales and commissioning of machinery for the agri sector. They don't have manufacturing in India and are imported from Thailand.

<https://x.com/IndianConsOsaka/status/2001889154742047122?s=20>

10) FP Corporation, Hiroshima: The company is a manufacturer of Food Packaging container Trays with a unique business model where they collect and recycle the waste. They produce foam-based trays used in Japanese foods, especially sushi, etc.

<https://x.com/IndianConsOsaka/status/2001888068715114871?s=20>
