3.	Investment	<p>Dominican Republic mining exports reach record US\$2.59 billion in 2025. The Dominican Republic’s mining sector shattered records in 2025, reaching an all-time high export value of US\$2.59 billion. This represents a staggering 52% increase over 2024, solidifying the industry as a cornerstone of the national economy.</p> <p>Key Financial Milestones</p> <p><u>Record Exports:</u> The US\$2.59 billion total surpassed the previous record of US\$2.16 billion (set in 2021).</p> <p><u>Late-Year Surge:</u> The fourth quarter alone generated US\$825.9 million, a 67% jump from the previous year, primarily fueled by gold and silver.</p> <p>Investment Magnet: Mining and energy accounted for 40% of all Foreign Direct Investment (FDI) in the country, with mining alone attracting over US\$556.3 million by September.</p> <p>Strategic & Sustainable Developments</p> <p>Minister of Energy and Mines Joel Santos highlighted that 2025 was about more than just numbers; it was about diversification and modernization:</p> <p><u>Rare Earths:</u> Significant advances in exploration were made in Pedernales, potentially opening a new frontier for the industry.</p> <p>Larimar: The unique gemstone received international recognition via the “Larimar Barahona” designation of origin.</p> <p><u>Social Responsibility:</u> A landmark RD\$20 billion community resettlement agreement was reached in Cotuí to ensure more equitable mining operations.</p> <p><u>Legal Reforms:</u> The government continued updates to the Mining Law to better align with international standards and sustainable practices.</p> <p>Record gold prices boost Dominican exports. The Dominican Republic's export sector hit a significant high in 2025, largely fueled by a surge in gold prices and a strategic push into new international markets. Here is a breakdown of the key figures and drivers behind this record-breaking year:</p> <p>Total Export Value: US\$14.64 billion (a historic milestone).</p> <p>Growth Rate: 13.4% increase compared to 2024.</p> <p>Diversification: While gold was the primary driver, exports excluding gold still grew by a healthy 6.9%, showing strength across multiple sectors.</p>																																																					

		<p>The Dominican Republic expanded its reach to over 85 international markets, with some regions showing massive triple-digit growth:</p> <table border="1"> <thead> <tr> <th>Destination</th><th>Growth (%)</th><th>Key Driver</th></tr> </thead> <tbody> <tr> <td>India</td><td>135.20%</td><td>Primarily gold shipments</td></tr> <tr> <td>Canada</td><td>308.10%</td><td>Significant volume increase</td></tr> <tr> <td>Haiti</td><td>33.70%</td><td>Regional trade recovery</td></tr> <tr> <td>Colombia</td><td>110.00%</td><td>Emerging trade partner</td></tr> <tr> <td>United States</td><td>3.10%</td><td>Steady performance in the largest market</td></tr> </tbody> </table> <p>Growth was recorded across nearly 1,500 different product categories, showcasing a resilient and varied productive sector. <u>Raw Gold:</u> Remained the #1 export, totaling US\$2.38 billion. <u>Agricultural Goods:</u> Cacao beans (up US\$237.2M) and raw tobacco (up US\$74.3M) saw substantial gains. <u>Manufacturing:</u> Medical instruments and plastic articles also contributed to the positive balance.</p> <p>According to ProDominicana, these results aren't just a fluke of high commodity prices. They are the result of the National Export Promotion Plan, which is 93% executed. This plan has helped the country remain competitive despite global geopolitical tensions and trade restrictions.</p>	Destination	Growth (%)	Key Driver	India	135.20%	Primarily gold shipments	Canada	308.10%	Significant volume increase	Haiti	33.70%	Regional trade recovery	Colombia	110.00%	Emerging trade partner	United States	3.10%	Steady performance in the largest market
