Message From :

SHRI R. VEERAMANI
Chairperson, CAPEXIL, India

It gives me immense pleasure to know that CAPEXIL is organising India's participation at "Installer Show UK 2026" scheduled to be held from 23rd to 25th June 2026 at Birmingham, United Kingdom, with a dedicated focus on Ceramic & Allied Products including Ceramic & Porcelain Tiles, Sanitaryware, Bathroom Fittings & Accessories, Architectural Products and related building materials.

India today stands as one of the leading global manufacturing and export hubs for ceramic and allied products. The Indian ceramic industry has achieved remarkable growth over the years through continuous innovation, adoption of modern technology, improved product quality and strong manufacturing capabilities. Indian products are now widely recognised across international markets for their superior quality, contemporary designs, sustainability and competitive pricing.

The United Kingdom represents an important and high-potential market for Indian ceramic and construction-related products. The growing emphasis on housing, renovation, sustainable infrastructure and modern architectural solutions in the UK offers significant opportunities for Indian exporters. The recently strengthened economic and trade cooperation between India and the United Kingdom, including the progress under the India-UK Free Trade framework, is expected to further enhance bilateral trade and create new avenues for business collaboration.

CAPEXIL's participation in Installer Show UK 2026 aims to showcase India's manufacturing excellence, promote "Brand India" and facilitate meaningful interactions between Indian exporters and overseas buyers, importers, distributors, architects, designers and project consultants. I am confident that this initiative will help generate new business opportunities, strengthen long-term partnerships and further expand the global presence of Indian ceramic and allied products.

I compliment the Ceramics & Allied Products Panel of CAPEXIL and all participating member exporters for their efforts and commitment towards promoting India's export potential in the international market. I also convey my best wishes for the grand success of the event and fruitful business engagements during the exhibition.

(R.VEERAMANI)
Chairperson
CAPEXIL

Message From :

DR. VENKATACHALAM MURUGAN
Consul General Of India, Birmingham

It gives me immense pleasure to welcome the Indian delegation participating in InstallerSHOW 2026 at the National Exhibition Centre (NEC) Birmingham, the United Kingdom, from 23–25 June 2026 under the aegis of CAPEXIL (Chemical and Allied Products Export Promotion Council of India).

I am happy to note that the Indian Pavilion at NEC will showcase a strong and diverse group of exporters representing porcelain tiles, sanitaryware and other allied construction products. India has emerged as one of the world's leading manufacturing hubs for Ceramic & Allied Products and is today the world's second-largest producer of Ceramic & Porcelain Tiles. India's ceramic industry, particularly centred in Morbi, Gujarat — home to more than 800 manufacturing units in a single cluster — exports to over 140 countries worldwide.

Indian manufacturers are globally recognised for their large-scale production capacity, advanced manufacturing technology, sustainable practices, design innovation and highly competitive pricing. The UK continues to remain an important market for Indian ceramic products, driven by demand from the housing, renovation and infrastructure sectors. During 2025, the UK imported nearly USD 1 billion worth of ceramic products, including ceramic and porcelain tiles and sanitaryware, from across the world. The UK ceramic tile market valued currently at approximately £2.2 billion. Imports from India stood at approximately USD 131 million, with Indian ceramic tiles accounting for nearly 13% of the UK import market share.

InstallerSHOW 2026 provides an important platform for productive and profitable engagements between Indian manufacturers and UK distributors, developers, architects, contractors and investors. The exhibition also assumes greater significance in light of the recently concluded India–UK Comprehensive Economic and Trade Agreement (CETA), which is expected to improve market access, reduce trade barriers and strengthen bilateral trade and economic cooperation.

The Consulate General of India in Birmingham has actively shared details of the Indian delegation with several UK SMEs and industry stakeholders to encourage them to attend the exhibition. I am confident that the event will facilitate meaningful buyer–seller interactions, new business partnerships and long-term business opportunities.

I extend my best wishes to CAPEXIL and the entire Indian delegation for a productive and successful participation at InstallerSHOW 2026. I look forward to meeting you all on 23 June 2026 and wish the event every success.

With warm regards,

Dr. Venkatachalam Murugan
Consul General of India
Birmingham

Message From :

SHRI NILESH JETPARIYA
Chairman - Ceramics & Allied Products Inldg. Refractories Panel, CAPEXIL

It gives me immense pleasure that CAPEXIL is organizing participation in the prestigious Installer Show 2026, along with a dedicated Buyer–Seller Meet, scheduled to be held from 23rd to 25th June 2026 at NEC, Birmingham, United Kingdom.

This important international platform will prominently showcase India's growing strengths in Ceramic & Porcelain Tiles, Wall & Floor Tiles, Outdoor & Roofing Tiles, Sanitaryware, Bathroom Fittings & Accessories, and Architectural Ironmongery including Handles, Locks, Hinges, Knobs and Door Accessories. The event presents a valuable opportunity for Indian manufacturers and exporters to interact directly with leading overseas buyers, importers, distributors, architects, contractors and industry professionals from across the globe.

I am delighted to note that the Installer Show is expected to attract more than 40,000 trade visitors and professionals from diverse sectors, making it one of the most significant business networking platforms for the building materials and construction industry in the United Kingdom and Europe. CAPEXIL's participation in this prestigious event reflects India's growing prominence as a reliable global sourcing destination for high-quality ceramic and allied products.

The India Pavilion will symbolize the spirit of innovation, sustainability, quality manufacturing and export excellence under the vision of a stronger India–UK economic partnership. In the backdrop of the evolving India–UK Free Trade Agreement (FTA), this platform will further strengthen bilateral trade relations and open new avenues of cooperation, investment and business growth between the two countries.

India continues to remain one of the fastest growing major economies in the world with strong momentum in infrastructure development, housing, smart cities and construction activities. The Indian Ceramic & Allied Products Industry has emerged as a globally competitive sector driven by advanced manufacturing capabilities, product innovation, sustainability initiatives and world-class quality standards. I am confident that the Indian industry will continue to play a vital role in supporting India's growth story and expanding its global footprint in the years ahead.

On behalf of CAPEXIL, I extend my sincere greetings and best wishes to all participating exporters, overseas buyers, business visitors and stakeholders for the grand success of the event. I also take this opportunity to express our heartfelt gratitude to the Government of India, the Consulate General of India, Birmingham, supporting agencies and industry partners for their valuable guidance and cooperation.

I wish the India Pavilion at Installer Show 2026 a highly successful and productive participation.

CAPEXIL

(Set up by the Ministry of Commerce & Industry, Govt. of India)

A BUYER'S VITAL LINK TO THE BEST FROM INDIA

CAPEXIL – India's Premier International Trade Facilitation & Export Promotion Council was set up in 1958 by the Ministry of Commerce, Government of India to facilitate the export of chemical based and allied products. **This mega organization has around 4000 member exporters across India** who are exporters of 16 broad product genres and represent the best in their fields. Their quality products enjoy the preference of all major markets across the globe. **Capexil is having around 7% share in India's Total Export which shows the significance** of this organization & their member exporters. CAPEXIL contributes exports of around USD 29.00 Billion to India's Total Exports during 2024-25.

The Council right from the beginning has been playing the role of a facilitator towards the promotion of export of products viz. Chemical based & Allied Products as entrusted to it by the Government. The CAPEXIL has its very active office in Kolkata, Delhi, Mumbai & Chennai.

THE INDIAN BUSINESS DELEGATION TO INSTALLER SHOW, BIRMINGHAM, UK IS BEING REPRESENTED BY

MR. NILESH JETPARIYA

Chairman – Ceramics Panel, CAPEXIL &
Leader of the Delegation

Mob.: +91 9825212799

Email: ceramicchairman@capexil.in

MR. KUNTAL GHOSH

Executive Officer, CAPEXIL
Member Secretary of the Delegation

Mob.: +91 9674992355

Email: eoero@capexil.in

PRODUCT SPECTRUM: The products under the canopy of CAPEXIL are broadly:

1. Ceramics & Allied Products Includg. Refractories 2. Natural Stone, namely Granite, Marbles, etc. 3. Paints, Varnishes & Allied Products 4. Bulk Minerals & Ores 5. Auto Tyres & Tubes 6. Processed Minerals 7. Rubber Manufactured Products 8. Glass & Glassware 9. Plywood & Wood Products 10. Cement Clinker & Asbestos Cement Products 11. Paper, Paper Board & Paper Products 12. Books, Publications & Printing 13. Animal By Products 14. Ossein & Gelatine 15. Graphite & Explosives 16. Misc. Products viz. Safety Matches, Fireworks, Activated Carbon, Fertilizers, etc.

This list of export products is only illustrative and not exhaustive.

The primary focus of the Council is to promote Indian exports & facilitate trade with overseas importers. Trade Promotion is one of the major activities of the Council to boost Indian exports in overseas market. CAPEXIL executes this role in a number of ways and the basket of services to overseas importers includes the following:

CAPEXIL

(Set up by the Ministry of Commerce & Industry, Govt. of India)

- Capexil has a membership base of around 4000 registered members across the given range of products categories. So it can refer a list of reliable exporters to the overseas importers as per their particular needs.
- Providing up-to-date information on supply sourcing and statistics on Indian Export Market.
- Bringing out Publications like trade directory of established Indian Exporters, brochures on individual products etc. for ready reference of overseas importers. Thus, helping importers to locate reliable suppliers of “Made in India” products.
- Dissemination of trade enquiries and tenders raised abroad.
- Providing publicity and marketing support including arranging participation in fairs / exhibition held abroad. CAPEXIL has also successfully arranged several buyer seller meets in different countries abroad. Information on selected markets and assistance in identifying potential markets.
- Organizing and participating in National / International workshop, Capacity Building Workshops, Awareness Program, Seminars, Physical as well as Virtual Buyer Seller Meets.
- Create export awareness among the Trade and Industry;
- Monitor exports and provide feed back to the Government on export problems and policy dispensation needed to boost exports;
- Undertake promotional activities like Buyer-Seller Meets, sending sales tours/delegation, undertake overseas publicity programme, organize and participate in overseas fairs and exhibitions, collect and disseminate overseas marketing data including circulation of tenders and overseas enquiries among its members;
- Build up relation and maintain regular contact programme with various International organizations as also overseas Chambers of Commerce, Trade Associations, etc;
- Assist individual exporters to overcome export operational constraints;
- Operate various schemes formulated by the Government of India viz. MAI/MAS etc.;
- Maintain website (www.capexil.org) for trade related promotion.
- Provide Video Conferencing facility to its members from time to time.
- Carry out market survey around the world for benefit of its member exporters.
- Regular feedback on changes in export / import policy, procedures and trends.
- Overseas Market Information to members.

Representation and Guidance is another important role of the Capexil. For its designated products, it is the main forum for addressing concerns in export matters to attract the attention of the policy makers. It acts as an interface between members and the Government regarding trade and policy problems, national and international. It might be mentioned here that the membership of Export Promotion Council is a precondition for registration. The registered exporters can only apply for import / export licences and to receive various export benefits including Duty Drawback, RODTEP, Interest Subvention, Advance Authorization, EPCG & so on.

CAPEXIL HAS A STRONG PRESENCE ON THE NET & SOCIAL MEDIA:

The CAPEXIL website www.capexil.org are dynamic tool enriched with vital information on Indian market and also a formidable bank of data on Government Policies emerging trends and trade enquiries.

Company Profile :

Microtech Metal Industries: Precision Engineering Excellence Established three decades ago, Microtech Metal Industries has emerged as a premier Indian manufacturer and exporter specializing in high-quality fittings for plumbing, air conditioning, heating, and sanitary systems. Our commitment to excellence is reflected in our diverse, precision-engineered product portfolio, which includes: Comprehensive Piping Solutions: Brass threaded fittings, end-feed fittings for copper, axial fittings for Pex, specialized polyethylene (PE) fittings, and compression fittings for AL-Pex pipes. Custom Manufacturing: We provide bespoke metal turning and milling components crafted from copper, brass, steel, stainless steel, and aluminum. Specialized Components: Advanced offerings include semi-finished parts for valves and PPR systems. By integrating hot forging and precision machining under one roof, Microtech offers a seamless experience from initial design and development to final production and assembly. Our unique combination of technical expertise, state-of-the-art infrastructure, and decades of industry experience ensures superior performance and reliability in every complex fitting we deliver.

Table with 2 columns: Description Of Product(s) / Items Of Business Interest, ITC HS Code (8 Digit) Of The Products Stated, Currently Exporting Countries, Certificates Holding, SQM / Units Capacity Of Production. Rows include product descriptions, HS codes (74122019, 74122000, 74122090, 73072990/80), export countries (Spain, Germany, Czech Republic, Poland, Serbia, Italy, Portugal, Sweden, Slovenia, Austria, Lithuania, Hungary, Latvia, Morocco, Algeria, France, USA, Brazil, Mexico), ISO 9001:2015, and 2500 units capacity.

MICROTECH Quality is our priority

Your Partner in Brass Manufacturing Excellence. Transforming Vision into Reality: Seamless Solutions from Concept to Finish

At Microtech, we take you through a smooth journey from Need to Finished Product: Need -> Concept -> Design -> Development -> Manufacturing Under one roof, we offer expert brass hot forging and precision machining services. With a unique blend of skills, cutting-edge technologies, and 30 years of experience, we deliver exceptional results at every stage. Trust Microtech for precision, quality, and reliability.

About Us

In 1995, Mudrika Ceramics India Pvt Ltd. was established in Baroda, a city rich in cultural heritage in Gujarat. The company which owns "MARK" brand, has become one of the leading manufacturer of Fine Ceramic Tableware products.

Our Focus Lies in delivering Products that meet national & international market expectations in terms of designs, finish, durability and presentation.

Our Vision

To become a globally recognized Ceramic Tableware Brand known for its innovation, quality and customer trust.

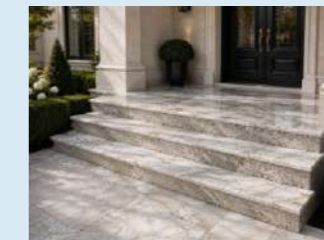

Paradise Group, Established 1972, is a third-generation, professionally managed Indian manufacturing & export organization specializing in premium ceramic sanitaryware & building-material solutions. With over 50 years of industry legacy, we have grown from a single production unit into a globally trusted enterprise serving markets across Africa, Middle East, Europe, South Asia, and Latin America.
